

MATERIALS LIST FOR PAINTING IN THE TIME OF COVID-19

We will be drawing for the first two weeks and then painting for the remaining six weeks. I will be drawing in graphite and charcoal. The paper will be at least 18x24in. I will likely use a larger size paper, perhaps 22x26in, Stonehenge. The paint will be oils – feel free to use what works best in your at-home environment. The canvas sizes I will be using will be somewhere between 18x20in and 22x25in. Feel free to use a size that works for you. I would suggest not working smaller than 12x16in.

I will generally be working from observation, looking at a still life motif. Feel free to set up your own still life or alternatively, to work from memory or imagination. I would suggest not working from a photograph or other two-dimensional image for the exercises.
